

# Meeting Report

Team Name: 13/06/2022

Start Time: 21:00

End Time: 22:00

Meeting Location: Google Meet

Moderator: Dea Mulaj

Members Present:

1. Alba Pupli
2. Bjorni Sylva
3. Bora Tafa
4. Dea Mulaj
5. Henri Cela
6. Petrika Mano

Members Absent: None

Topic Discussed:

- Task assignment for the week

Decisions:

- Continue working on the backend Rest API.
- Continue working on the frontend part of the application.
- Continue work on diagrams.

Tasks were assigned as below:

- Dea: Finishing work in the backend and frontend on application. Worked on updates in controllers as well as deletes. Added toasts on frontend. Added About Us component in front and the functionality of deleting a category. Added class diagram and worked on component diagram.
- Alba: Worked on Gantt Chart, Network Diagram and Activity Table. Also worked on updating non-functional requirement. Prepared final document to print. Additional work on activity diagrams and object diagram.

- Bjorn: Testing API with Postman. Wrote test cases and Use Case scenarios.
- Petrika: Additional work on sequence diagram, state and swim lane diagrams. Added alerts in frontend.
- Bora: Component Diagram, Deployment Diagram and additional work on state diagrams.
- Henri: Added alerts in frontend. Worked on collaboration diagram and use case table.

#### Objectives:

- Fixing bugs in frontend.
- Test RestAPI using Postman.
- Finish work with diagrams.
