

Meeting Report

Team Name: 25/05/2022

Start Time: 21:00

End Time: 22:00

Meeting Location: Google Meet

Moderator: Dea Mulaj

Members Present:

1. Alba Pupli
2. Bjorni Sylva
3. Bora Tafa
4. Dea Mulaj
5. Henri Cela
6. Petrika Mano

Members Absent: None

Topic Discussed:

- Task assignment for the week

Decisions:

- Start working on the backend Rest API.
- Work on the database.
- Start working on the frontend part of the application.

Tasks were assigned as below:

- Dea: Spring Boot / MySQL integration, Json Web Token authentication/ Create a Postman Collection to test Rest API.
- Alba & Bjorn: Work User and User Roles model/controller/service.
- Petrika: Create a React App and import specific packages we have decided to use.
- Bora: Work on routing in the React App.
- Henri: Work on Login/ Register pages.

Objectives:

- Finish database design and start work on Rest API with Spring Boot.

- Test RestAPI using Postman.
- Start creating the template for the frontend part of the application.
